

46th NATIONAL CONGRESS

ITALIAN SOCIETY OF INTERVENTIONAL CARDIOLOGY

GISE

Società Italiana di Cardiologia Interventistica

1-4 OCTOBER 2025

MILAN, Allianz MiCo

South Wing

TIMETABLE

50 **GISE**
ANNI
di scienza e innovazione

LEGENDA
ARTIFICIAL INTELLIGENCE & BIOENGINEERING
CORONARY
HEART FAILURE
MULTIMODALITY IMAGING
PERIPHERAL
PHARMACOLOGICAL
STRUCTURAL

	08:00	09:10	10:30	11:35	11:40	13:00
AUDITORIUM	LIVE CASES (Coronary) Calcific lesions	FLASH UPDATES (Coronary)	OPENING CEREMONY	switch time	LIVE CASES (Structural) Mitral TEER	
	08:00-13:00 Sponsored hands-on village Demo & hands-on with Company Specialists					

	13:05	14:35	15:00	16:00	16:05	16:30	17:05	17:10	17:30	18:00	18:10	18:15	19:00	19:15
BROWN 1		COFFEE BREAK	NURSES & TECHNICIANS											
			Il cuore a 360°: l'imaging cardiologico	miniLAB 5 Laser cardiovascolare di nuova generazione	Team in azione. Live in the box edizione 2025			miniLAB 7 Focus on: tomografia a coerenza ottica coronarica	La patologia pediatrica, un percorso di una vita					
HOT SEATS Pushing the boundaries of transcatheter mitral interventions	SWITCH TIME		HOT SEATS CTOS dealing with high calcific burden: strategies, tools & tacti- cs for success	SWITCH TIME	HOT SEATS TAVI and CAD		SWITCH TIME	HOT SEATS New frontiers in modern PCI						
DROP IN Beyond the angiogram: coronary physiology for cad assessment and treatment			Drop IN Less is more: miniaturized imaging for safer, smarter interventions – From septum to appendage		DROP IN GenAI initiative Tools to empower your practice 1 Block			DROP IN Advanced imaging, risk-scoring and tailored intervention for tricuspid regurgitation						
STUDY GROUP Transcatheter aortic valve reinterventions: strategies and coronary challenges			STUDY GROUP Renal denervation in different scenarios		STUDY GROUP From image to intervention: mastering intravascular imaging in coronary artery disease			JOINT SESSION GISE-ANMCO Vascular management & problem solving						
TALK SHOW Mechanical circulatory support in infarct-related cardiogenic shock: does it truly improve outcomes?			TALK SHOW New frontiers and best practices in left atrial appenda- ge occlusion		TALK SHOW Mitral TEER: where is the limit?			TALK SHOW Lipid lowering therapies after acute coronary syndrome						
TACTICS IN EVERYDAY PRACTICE Chronic total occlusion: pitfalls in everyday practice, from indications to complications			TACTICS IN EVERYDAY PRACTICE Catheter-directed therapies for acute PE: tips, tricks and pitfalls		TACTICS IN EVERYDAY PRACTICE Know the sculptor's tools: how to manage coronary artery calcifications			TACTICS IN EVERYDAY PRACTICE Solving TAVI complications objectives						
AMBER 8			NURSES & TECHNICIANS											
			Dalla periferia al centro: oltre gli ostacoli	miniLAB 6 TEP: uno sguardo a 360°	I fantastici quattro: terapia farmacologica e supporto all'interventistica			miniLAB 8 Il crimping nella TAVI	Dal tessuto alla funzione: il cuore tra patologie strutturali e non strutturali					
EDUCATIONAL ROOM (SUITE 2)			LAB (B) Sistemi di supporto emodinamico con pompa microassiale (edizione 1)	Comunicazioni Orali 3	LAB (B) Sistemi di supporto emodinamico con pompa microassiale (edizione 2)			Comunicazioni Orali 4	LAB (B) Sistemi di supporto emodinamico con pompa microassiale (edizione 3)					
CASE CORNER			CLINICAL CASES		CLINICAL CASES				CLINICAL CASES					
	13:05-14:35 Sponsored hands-on village Demo & hands-on with Company Specialists	14:35-19:00 Sponsored hands-on village Hands-on training sessions: Meet the Expert												

Friday, 3 October 2025

	08:00	09:00	10:10	11:50	13:00
AUDITORIUM	GISE-YOUNG SESSION: Challenging clinical scenarios	LIVE CASES (Coronary) Multivessel disease and drug-eluting balloon	LATE BREAKING CLINICAL SCIENCE WITH EDITORS	LIVE CASES (Structural)	
	08:00-13:00 Sponsored hands-on village Demo & hands-on with Company Specialists

BROWN 1		S W I T C H T I M E		C O F F E B R E A K	NURSES & TECHNICIANS												
			The best of abstract 2025		miniLAB 9 Studio del microcircolo coronarico (Complete Cardiac Characterization)	Strumenti del rischio clinico: standardizzare per migliorare la sicurezza della persona assistita		miniLAB 11 PCI nelle lesioni calcifiche: sfide e soluzioni nella pratica interventistica	Modelli e strategie per l'assistenza alla persona in ambito cardiologico		Chiusura congresso N&T e Premiazione miglior Abstract N&T 2025 GISE 2025: prospettive future (Assemblea Soci)						
BROWN 2			HOT SEATS Anatomical challenges in TAVI patients			JOINT SESSION GISE-SICCH TAVI in extreme size anulus			HOT SEATS NEXT gen PCI			HOT SEATS Ventricular support: from cardiogenic shock to high risk PCI					
AMBER 1-2			DROP IN Cracking the wall: approaches to severely calcified and uncrossable CTO			DROP IN Mastering transcatheter mitral interventions			DROP IN Bioengineering for interventional cardiologists: from basics to clinical practice			DROP IN DCB In de novo lesions, specific scenario in complex PCI					
AMBER 3-4	INDUSTRY LUNCH SYMPOSIUM		INDUSTRY LUNCH SYMPOSIUM		JOINT SESSION GISE-SIC Metabolic target in post PCI patients		STUDY GROUP Cardiac computed tomography to guide therapy in atherosclerosis			STUDY GROUP Alternative vascular strategies in large-bore access			STUDY GROUP The role of MRI in the modern cardiological era				
AMBER 5-6	INDUSTRY LUNCH SYMPOSIUM		INDUSTRY LUNCH SYMPOSIUM		TALK SHOW High risk PCI: advanced strategies and clinical controversies		TALK SHOW Cracking the code: daily practice unlocked by intravascular imaging & physiology			TALK SHOW Advanced imaging, risk-scoring and tailored intervention for tricuspid regurgitation			TALK SHOW Chronic total occlusion: when, how and why opening an occluded vessel?				
AMBER 7	INDUSTRY LUNCH SYMPOSIUM		INDUSTRY LUNCH SYMPOSIUM		TACTICS IN EVERYDAY PRACTICE Renal denervation in everyday practice		TACTICS IN EVERYDAY PRACTICE Strategies for mechanical assistance in cardiogenic shock: access, implantation and management			TACTICS IN EVERYDAY PRACTICE Full physiology in daily practice			TACTICS IN EVERYDAY PRACTICE Transcatheter pfo closure: selecting the right patient, how to guide and perform the procedure and a glimpse to transcatheter closure without footprint				
AMBER 8	INDUSTRY LUNCH SYMPOSIUM		INDUSTRY LUNCH SYMPOSIUM		NURSES & TECHNICIANS												
					Competenze che si integrano: il valore del team per una cardiologia interventistica d'avanguardia	miniLAB 10 ECG in pratica: saper leggere per saper agire	Resilienza sanitaria post-pandemia: strumenti, strategie e prospettive in cardiologia interventistica		miniLAB 12 Sistemi di chiusura percutanea	Professione e responsabilità sanitaria: la sfida legale e forense per il mondo sanitario							
EDUCATIONAL ROOM (SUITE 2)					LAB (C) Accessi vascolari ecoguidati in emodinamica: fondamenti, anatomia e applicazioni pratiche (edizione 1)	Comunicazioni Orali 5	LAB (C) Accessi vascolari ecoguidati in emodinamica: fondamenti, anatomia e applicazioni pratiche (edizione 2)		Comunicazioni Orali 6	LAB (C) Accessi vascolari ecoguidati in emodinamica: fondamenti, anatomia e applicazioni pratiche (edizione 3)							
CASE CORNER					CLINICAL CASES		CLINICAL CASES			CLINICAL CASES			CLINICAL CASES				
	13:00-15:30 Sponsored hands-on village Demo & hands-on with Company Specialists				15:30-19:30 Sponsored hands-on village Hands-on training sessions: Meet the Expert												

Saturday, 4 October 2025

NEXT GEN in ACTION - LIVE DAY

	09:00	10:00	11:20	12:40	13:00
AUDITORIUM	GISE-YOUNG & EAPCI SESSION LIVE-IN-THE-BOX	LIVE CASES CORONARY - CTO	LIVE CASES TAVI	CLOSING REMARKS	
	08:00-13:30 Sponsored hands-on area Demo & hands-on with Company Specialists
