

46 NATIONAL CONGRESS

ITALIAN SOCIETY OF INTERVENTIONAL CARDIOLOGY

GISE

Società Italiana di Cardiologia Interventistica

1-4 OCTOBER 2025

MILAN, Allianz MiCo
South Wing

TIMETABLE

50 **GISE**
ANNI
di scienza e innovazione

Wednesday, 1 October 2025

	13:30	14:30	14:35	15:05	15:35	15:40	16:05	16:35	16:40	16:45	17:35	17:45	17:50	18:50	18:55	20:00	
BROWN 1	CHALLENGERS ON STAGE: ORAL COMMUNICATIONS Acute coronary syndrome	S W I T C H T I M E	NURSES & TECHNICIANS														
	miniLAB 1 La gestione dell'angiografico: immagini diagnostiche e segnali fisiologici (poligrafo)		Intelligenza artificiale: quali prospettive per la gestione cardiologica		miniLAB 3 Sistemi informativi CIS/PACS in cardiologia: integrazione operativa e dati clinici diagnostici		Dalla sala di emodinamica alla scrittura scientifica: valorizzare l'esperienza della ricerca										
BROWN 2	CHALLENGERS ON STAGE: ORAL COMMUNICATIONS Chronic coronary syndrome		HOT SEATS Complex scenarios, clear choices: the role of new imaging modalities			HOT SEATS Left main challenges				HOT SEATS Acute pulmonary embolism and pulmonary hypertension: decision making in real life			HOT SEATS Chronic coronary syndrome: decision making in real life				
AMBER 1-2	CHALLENGERS ON STAGE: ORAL COMMUNICATIONS Coronary, from imaging to physiology		DROP IN Acute coronary syndromes: current issues on management			DROP IN Does TAVI meet the challenge of expanding its indications?				DROP IN Old and new issues in transcatheter treatment of ACHD			DROP IN Seeing clearly, acting precisely: miniaturized imaging in valve interventions			GISE ANNUAL MEETING	
AMBER 3-4	CHALLENGERS ON STAGE: ORAL COMMUNICATIONS Peripheral intervention, from renal denervation to pulmonary angioplasty never forgetting lower limbs		STUDY GROUP Time-dependent antithrombotic choice: a matter of debate			GenAI initiative Tools to empower your practice - Session 1: PPRIMER				STUDY GROUP Precision at the core: mastering physiological assessment in the cath lab			STUDY GROUP The dysfunctional pulmonary valve and congenital anomalies of the coronary arteries: recent advances in diagnosis, patient selection and treatment				
AMBER 5-6	CHALLENGERS ON STAGE: ORAL COMMUNICATIONS TAVI 1		TALK SHOW Does tavi meet the challenge of bicuspid valve?			TALK SHOW Coronary artery calcifications and our weapons: dealing with worst enemies				TALK SHOW Early use of SGLT-2i in patients with cardiovascular disease			TALK SHOW Infarct-related cardiogenic shock: advanced management and current controversies				
AMBER 7	CHALLENGERS ON STAGE: ORAL COMMUNICATIONS TAVI 2		TACTICS IN EVERYDAY PRACTICE See more, treat better: intravascular imaging in action			TACTICS IN EVERYDAY PRACTICE Left atrial appendage closure challenges and complications				Bioengineering for interventional cardiologists: from basics to clinical practice			TACTICS IN EVERYDAY PRACTICE Leave nothing behind: the new paradigm in PCI				
AMBER 8	CHALLENGERS ON STAGE: ORAL COMMUNICATIONS Structural intervention: mitral, tricuspid, LAAO AND PFO closure		NURSES & TECHNICIANS														
		miniLAB 2 Dalla sala operatoria al catetere: la gestione percutanea dell'insufficienza mitralica		Coordinamento: un approccio strategico organizzativo nelle sale di cardiologia interventistica		miniLAB 4 Iniettori automatici nella somministrazione del mezzo di contrasto: standard operativi e pratica in cardiologia interventistica		Sala ibrida: management e workflow per un'attività clinica efficiente									
EDUCATIONAL ROOM (SUITE 2)		Comunicazioni Orali 1		LAB (A) Strategie di disostruzione coronariche: aterectomia rotazionale (edizione 1)		Comunicazioni Orali 2		LAB (A) Strategie di disostruzione coronariche: aterectomia rotazionale (edizione 2)									
CASE CORNER	CHALLENGERS ON STAGE: CLINICAL CASES Coronary calcium management: how to break the rock		CHALLENGERS ON STAGE: CLINICAL CASES ACS, first enemy to fight			CHALLENGERS ON STAGE: CLINICAL CASES Complex coronary lesion, how to deal with				CHALLENGERS ON STAGE: CLINICAL CASES Imaging, physiology & co.			CHALLENGERS ON STAGE: CLINICAL CASES Peripheral techniques, looking beyond the heart				
	13:30-18:30 Sponsored hands-on village Demo & hands-on with Company Specialists																
	LEGENDA																
	ARTIFICIAL INTELLIGENCE & BIOENGINEERING																
	CORONARY																
	HEART FAILURE																
	MULTIMODALITY IMAGING																
	PERIPHERAL																
	PHARMACOLOGICAL																
	STRUCTURAL

	08:00	09:10	10:30	11:35	11:40	13:00
AUDITORIUM	LIVE CASES (Coronary) Calcific lesions from Fondazione Poliambulanza, Brescia and AOU Padova	FLASH UPDATES (Coronary)	OPENING CEREMONY	Switch time	LIVE CASES (Structural) Mitral TEER from Fondazione Poliambulanza, Brescia and AOU Padova	
	08:00-13:00 Sponsored hands-on village Only demo & activity with Company Specialists					

	13:05	14:05	14:35	15:00	16:00	16:05	16:30	17:05	17:10	17:30	18:00	18:10	18:15	19:00	19:15
BROWN 1			COFFEE BREAK	NURSES & TECHNICIANS											
				Il cuore a 360°: l'imaging cardiologico	miniLAB 5 Laser cardiovascolare di nuova generazione	Team in azione. Live in the box edizione 2025			miniLAB 7 Focus on: tomografia a coerenza ottica coronarica	La patologia pediatrica, un percorso di una vita					
BROWN 2				HOT SEATS Pushing the boundaries of transcatheter mitral interventions	SWITCH TIME	HOT SEATS CTOS dealing with high calcific burden: strategies, tools & tactics for success	SWITCH TIME	HOT SEATS TAVI and CAD		SWITCH TIME	HOT SEATS New frontiers in modern PCI				
AMBER 1-2	INDUSTRY LUNCH SYMPOSIUM MEDTRONIC			DROP IN Beyond the angiogram: coronary physiology for cad assessment and treatment		DROP IN Less is more: miniaturized imaging for safer, smarter interventions – From septum to appendage		GenAI initiative Tools to empower your practice - Session 2: PAYOFF			DROP IN Advanced imaging, risk-scoring and tailored intervention for tricuspid regurgitation				
AMBER 3-4	INDUSTRY LUNCH SYMPOSIUM PHILIPS			STUDY GROUP Transcatheter aortic valve reinterventions: strategies and coronary challenges		STUDY GROUP Renal denervation in different scenarios		STUDY GROUP From image to intervention: mastering intravascular imaging in coronary artery disease			JOINT SESSION GISE-ANMCO Vascular management & problem solving				
AMBER 5-6	INDUSTRY LUNCH SYMPOSIUM ABBOTT VASCULAR			TALK SHOW Mechanical circulatory support in infarct-related cardiogenic shock: does it truly improve outcomes?		TALK SHOW New frontiers and best practices in left atrial appendage occlusion		TALK SHOW Mitral TEER: where is the limit?			TALK SHOW Lipid lowering therapies after acute coronary syndrome				
AMBER 7	INDUSTRY LUNCH SYMPOSIUM MERIL			TACTICS IN EVERYDAY PRACTICE Chronic total occlusion: pitfalls in everyday practice, from indications to complications		TACTICS IN EVERYDAY PRACTICE Catheter-directed therapies for acute PE: tips, tricks and pitfalls		TACTICS IN EVERYDAY PRACTICE Know the sculptor's tools: how to manage coronary artery calcifications			TACTICS IN EVERYDAY PRACTICE Solving TAVI complications objectives				
AMBER 8				NURSES & TECHNICIANS											
EDUCATIONAL ROOM (SUITE 2)				Dalla periferia al centro: oltre gli ostacoli	miniLAB 6 TEP: uno sguardo a 360°	I fantastici quattro: terapia farmacologica e supporto all'interventistica			miniLAB 8 Il crimping nella TAVI	Dal tessuto alla funzione: il cuore tra patologie strutturali e non strutturali					
				LAB (B) Sistemi di supporto emodinamico con pompa microassiale (edizione 1)	Comunicazioni Orali 3	LAB (B) Sistemi di supporto emodinamico con pompa microassiale (edizione 2)			Comunicazioni Orali 4	LAB (B) Sistemi di supporto emodinamico con pompa microassiale (edizione 3)					
CASE CORNER				CHALLENGERS ON STAGE: CLINICAL CASES TAVR in valve, different setting, same goal		CHALLENGERS ON STAGE: CLINICAL CASES TAVR in complex scenarios, how to manage challenging cases		CHALLENGERS ON STAGE: CLINICAL CASES Mitral, tricuspid and...				CHALLENGERS ON STAGE: CLINICAL CASES New frontiers in structural intervention			
	13:00-14:30 Sponsored hands-on village Only demo & activity with Company Specialists			14:30-18:30 Sponsored hands-on village Hands-on training sessions: Meet the Expert											

Friday, 3 October 2025

	08:00	09:00	10:10	11:50
AUDITORIUM	GISE-YOUNG SESSION: Challenging clinical scenarios	LIVE CASES (Coronary) from AOU Alessandria, and Humanitas Research Hospital, Rozzano Multivessel disease and drug-eluting balloon	LATE BREAKING CLINICAL SCIENCE WITH EDITORS	LIVE CASES (Structural) from Xiamen (ROC) University Cardiovascular Hospita and AOU Alessandria

BROWN 1						COFFEE BREAK	NURSES & TECHNICIANS												
							The best of abstract 2025		miniLAB 9 Studio del microcircolo coronarico (complete cardiac characterization)	Strumenti del rischio clinico: standardizzare per migliorare la sicurezza della persona assistita		miniLAB 11 PCI nelle lesioni calcifiche: sfide e soluzioni nella pratica interventistica	Modelli e strategie per l'assistenza alla persona in ambito cardiologico		Chiusura congresso N&T e Premiazione miglior Abstract N&T 2025 GISE 2025: prospettive future (Assemblea Soci)				
BROWN 2							HOT SEATS Anatomical challenges in TAVI patients		SWITCH TIME	HOT SEATS JOINT SESSION GISE-SICCH TAVI in extreme size anulus		SWITCH TIME	HOT SEATS NEXT gen PCI		SWITCH TIME	HOT SEATS Ventricular support: from cardiogenic shock to high risk PCI			
AMBER 1-2	INDUSTRY LUNCH SYMPOSIUM MEDTRONIC						DROP IN Cracking the wall: approaches to severely calcified and uncrossable CTO			DROP IN Mastering transcatheter mitral interventions			Bioengineering for interventional cardiologists: from basics to clinical practice			DROP IN DCB In de novo lesions, specific scenario in complex PCI			
AMBER 3-4	INDUSTRY LUNCH SYMPOSIUM EDWARDS LIFSCIENCES		SWITCH TIME	INDUSTRY LUNCH MINI-SYMPOSIUM EDWARDS LIFSCIENCES				STUDY GROUP JOINT SESSION GISE-SIC Metabolic target in post PCI patients		STUDY GROUP Cardiac computed tomography to guide therapy in atherosclerosis			STUDY GROUP Alternative vascular strategies in large-bore access			STUDY GROUP The role of MRI in the modern cardiological era			
AMBER 5-6	INDUSTRY LUNCH SYMPOSIUM GADA ITALIA INARI MEDICAL			INDUSTRY LUNCH SYMPOSIUM BOSTON SCIENTIFIC				TALK SHOW High risk PCI: advanced strategies and clinical controversies		TALK SHOW Cracking the code: daily practice unlocked by intravascular imaging & physiology			TALK SHOW Advanced imaging, risk-scoring and tailored intervention for tricuspid regurgitation			TALK SHOW Chronic total occlusion: when, how and why opening an occluded vessel?			
AMBER 7	INDUSTRY LUNCH SYMPOSIUM EUKON SMT		SWITCH TIME					TACTICS IN EVERYDAY PRACTICE Renal denervation in everyday practice		TACTICS IN EVERYDAY PRACTICE Strategies for mechanical assistance in cardiogenic shock: access, implantation and management		TACTICS IN EVERYDAY PRACTICE Full physiology in daily practice		TACTICS IN EVERYDAY PRACTICE Transcatheter pfo closure: selecting the right patient, how to guide and perform the procedure and a glimpse to transcatheter closure without footprint					
AMBER 8								NURSES & TECHNICIANS											
							Competenze che si integrano: il valore del team per una cardiologia interventistica d'avanguardia		miniLAB 10 ECG in pratica: saper leggere per saper agire e il ruolo del massaggiatore automatico	Resilienza sanitaria post-pandemia: strumenti, strategie e prospettive in cardiologia interventistica		miniLAB 12 Sistemi di chiusura percutanea	Professione e responsabilità sanitaria: la sfida legale e forense per il mondo sanitario						
EDUCATIONAL ROOM (SUITE 2)							LAB (C) Accessi vascolari ecoguidati in emodinamica: fondamenti, anatomia e applicazioni pratiche (edizione 1)		Comunicazioni Orali 5		LAB (C) Accessi vascolari ecoguidati in emodinamica: fondamenti, anatomia e applicazioni pratiche (edizione 2)		Comunicazioni Orali 6	LAB (C) Accessi vascolari ecoguidati in emodinamica: fondamenti, anatomia e applicazioni pratiche (edizione 3)					
CASE CORNER							CHALLENGERS ON STAGE: CLINICAL CASES PFO and LAAC, when atrium matters			CHALLENGERS ON STAGE: CLINICAL CASES Coronary complications: dissections, perforation and...			CHALLENGERS ON STAGE: CLINICAL CASES Coronary complications: when complex becomes complication			CHALLENGERS ON STAGE: CLINICAL CASES Structural complications			
	13:00-15:30 Sponsored hands-on village Demo & hands-on with Company Specialists						15:30-18:30 Sponsored hands-on village Hands-on training sessions: Meet the Expert												

Saturday, 4 October 2025

NEXT GEN in ACTION - LIVE DAY

	09:00	10:00	11:20	12:40	13:00
AUDITORIUM	GISE-YOUNG & EAPCI SESSION LIVE-IN-THE-BOX	LIVE CASES CORONARY - CTO from Ospedale di Rivoli, ASL TO3 and Ospedale Santa Maria delle Croci, Ravenna	LIVE CASES TAVI from IRCCS Policlinico San Donato, San Donato Milanese - AOU Policlinico "G. Rodolico - San Marco P.O. G. Rodolico, Catania and AOU Pisana, Ospedale Cisanello, Pisa	CLOSING REMARKS	
	08:00-13:00 Sponsored hands-on area Demo & hands-on with Company Specialists
